

A

C

Remove this text box after you read the directions. Copy this sheet for each student. Have each student fold the sheet in half in both directions. Crease the lines. Tear to separate the four letters. Have the students stand in a line at the end of the gym or outside. Ask them multiple choice questions. Have them hold up the letter of the correct answer. If they get it right, they may advance one step forward. The winner is the person who gets to the finish line first.
